Indigo Moon Theatre presents

The Worm that Squirmed

Puppet theatre for ages 5 + and families

A contemporary show for adults and children alike. Indonesian rod puppets tell of a squirmy worm that causes chaos wherever he goes. Using little spoken language, this visual feast of farce crosses cultural borders in crazy pursuit of the worm. Where is he now? Watch out everybody!

The Worm that Squirmed by Indigo Moon Theatre uses cross-cultural visual language. The humour of the show and musical score combined with live sound effects, make it thrilling to watch.

The theme of the show is that violence is wrong and doesn't solve anything.

"I laughed my head off....and the kids enjoyed it too!"
